

Te-Econom Plus®

Direct Restoration System

Eco-Etch®, Te-Econom Bond®,
Te-Econom Plus®, Te-Econom Flow®

**Ideally coordinated
economic **product system**
of Ivoclar Vivadent**

- Eco-Etch[®]
- Te-Econom Bond[®]
- Te-Econom Flow[®]
- Te-Econom Plus[®]

Eco-Etch®

37% phosphoric acid gel for total etch technique

Indications

Enamel etching and dentin conditioning for sealants and composite restorations

Advantages

- Good etching effect on enamel and dentin
- Optimal handling
- Broad indication spectrum

Te-Econom Bond®

Licht-curing, single-component bonding agent for enamel and dentin

Indications

- Direct light-curing restorations

Advantages

- One-bottle, one-layer adhesive
- High bond strengths
- Minimal evaporation of solvent (alcohol)

Te-Econom Flow®

Light-curing,
radiopaque, flowable
composite

Indications

- Restorative therapy for mini-cavities of all types
- Small posterior restorations (Classes I, II)
- Classes III, IV, V restorations
- Preventive resin restorations

Advantages

- Broad indication spectrum
- Optimal handling
- Easy access to even the smallest cavities
- Accurate and economic application
- Available in shades A2 and A3

Te-Econom Plus®

Light-curing,
radiopaque hybrid
composite

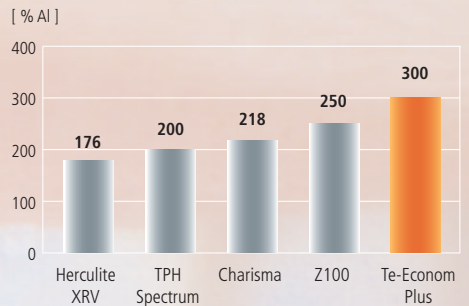

Indications

- Restorations of Classes I to V

Advantages

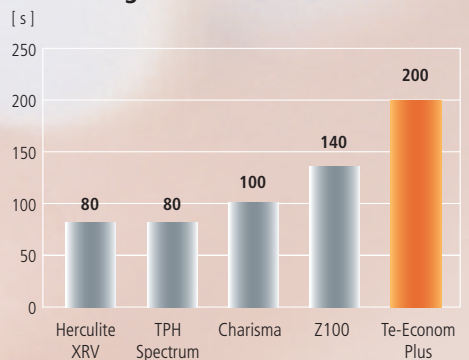

- Excellent physical properties
- Good polishability
- High radiopacity
- Long Working time
- Proven Ivoclar Vivadent technology and quality
- Available in shades A1, A2, A3, A3.5, B2 and C3

Radiopacity

R&D Ivoclar Vivadent 2007

Working time
